1 INTRODUCTORY LETTER

Dear Exhibitor,

The following manual is an attempt to make your exhibit at Map India 2005, a wholesome, memorable and fruitful exercise. Map India has been conducting its widely acclaimed exhibition for the last 7 years with the aim to provide an opportunity for the industry to update visitors and users on advancements, product updates, solutions and services. To touch this goal it attempts to eventually endow you with a cost-effective marketing and networking platform.

The manual will provide an overview of the event and elaborate upon all basic practicalities involved with the event for your assistance. It covers rules and regulations; the set-up process; the facilities offered; about official vendors and services, and other details.

We look forward to a productive experience of yours in Map India 2005. Feel free to get in touch with us in case of any further queries.

Warm regards,

Sanjay Malaviya (SAM)

6.5 Architectural Guidelines

Overall Height of Display

In case of machinery maximum height of 3.5 mts. can be accommodated in the Hall. The standard shell scheme construction shall be 2.4 mts.(H) x 0.9 mts. (W)

Power Connection

Exhibitors should submit their requirement of extra Electric Power Load in KW latest by **15 January 2005** to **Ms. Megha Datta** at megha.datta@gisdevelopment.net. Organizers will provide electric power point (5 Amp. per 9 sq. mtr.) for demonstration of equipment at a suitable place near exhibitor's booth for Built-up and Raw space. Internal distribution and fittings will have to be done by the exhibitor at his own cost.

Exhibitors are advised to install equipments like voltage stabilizers/CVTs/UPS/Isolation Transformers for their sensitive machines/exhibits.

The organizers reserve the right to disconnect any installation that, in their opinion, is dangerous or likely to cause annoyance to visitors or other exhibitors.

Lighting of exhibits

The system of exhibits lighting shall be so worked out that the visitors shall not see fittings and no light directly falls on the eye of the viewer.

General Guidelines

Exhibitors should design their stall in such a manner to clear access to distribution boards, emergency exits, service doors should be ensured while preparing layout designs.

Any construction should stand independent from structural pillars of halls etc. No hanging from the ceiling should be undertaken.

The exhibitors will ensure removal of the packing boxes, unused display aids from the hall before opening of the exhibition.

The use of fire hazard materials like thatch, dry glass and other similar inflammable material is not permitted. Only fire retardant material should be used for construction and decoration of booths.

6.6 Supervised Custom Clearance

Approved overseas exhibitors will be allowed duty free import of Exhibits for display at the MAP INDIA 2005

ATA carnet facility will be available to the overseas exhibitor from the countries which are signatory to ATA carnet systems. Subject to re-export within a period of six months from the date of import to India. Exhibits can be imported through the Indian customs against any one of the

instruments - ATA carnet or Embassy Guarantee or Bank Guarantee, through the official freight-forwarding agency.

The facility of duty free import subject to re-export is available to exhibitors who book space and pay the participation fee in foreign exchange. Reasonable quantities of printed material for distribution at the fair are allowed duty free entry. However, Gift items etc., are subject to duty applicable on the date of import. Capital good and equipments, which are importable without any restriction, may be imported. If such imports require a license, the actual user alone may import such goods. In the case of the sale of the exhibits (machinery, equipment etc.) normally the buyers pay the duty. Custom clearance for the sale will be done through nominated Freight & Forwarding agency for the event. It is advisable to import the consumable items on payment of custom duty. Import of consumables item is not permitted under ATA Carnet. (For contact detail refer to page no. 17)

6.7 Front Desk Management

To ensure prompt services to the participants at the exhibition the concept of "Front Desk Management" has been introduced. An office with separate counters for each category of "on site services" required by the participants during exhibition period, will be located in prominent and easy to approach area near the entry of the Exhibition hall.

The front desk will attend to the problems relating to construction of stands, supply of furniture, carpets, specially ordered items and miscellaneous arrangements conclusive for a successful participation.

6.8 Conference Secretariat

Conference secretariat will be operational during the hours of the exhibition. The secretariat will provide a full range of secretarial services, photocopying, Internet connection etc.

7 SECURITY/ INSURANCE

The organisers are dedicated to make this year's show safe and secure. We make every effort to arrive at a state of reasonable security for all exhibitors.

Although the organizers and the hotel exercise reasonable care for the protection of your materials, neither the organizers nor the hotel will be responsible for any bodily injury, damage or loss to your personnel or property during the period of time you have contracted for your booth.

Security will be provided in the exhibition area after the exhibition hours by the hotel. However all Exhibitors are requested to remove their valuables from their booths when the exhibition area is closed or unattended. Neither the organizers nor the hotel will carry insurance on your behalf. You must acquire and maintain insurance covering your booth products/services and personnel. Equipments should be insured both in transit and on location at the exhibition for the entire period it is on the exhibition site.

Reporting Theft

If something is missing from your booth, report it immediately to security. The organizers will not be responsible for any lost or stolen goods.

Lost and Found

During Exhibition, the registration desk serves as a lost and found. You will need to identify or describe your lost item to the staff member at the registration desk to claim your item.

Emergency Exits

Take note of all exits in the exhibition hall especially the ones closest to your booth.

Fire and Safety

Exhibit booths should not block or obstruct access to fire fighting and emergency equipments under any circumstances. All fire hose connections, extinguisher cabinets, and fire alarm call stations must be visible at all times.

The Hotel at different points in the exhibition hall shall provide fire-fighting equipments. Exhibitors are however advised to take due precautions and install necessary safety & Fire fighting equipments in their stands shall they so desire. Exhibitors', who, because of the nature of their exhibits, require a special type of fire extinguisher, must make arrangements at their own cost for the provision of such equipment.

10 FREQUENTLY ASKED QUESTIONS

What comes with my standard booth?

- The standard booth (shell scheme) size is 9 sq. mtrs. Each booth comes with one table, two chairs, three spot lights, one power point/extension cord (5A), one dustbin, carpeted floor, Exhibitors name on the Fascia.

When, how and where do I ship my materials for the booths?

- You have two options for shipping your exhibit materials : (1) Ship in advance to the Translink Warehouse or (2) ship directly to the Taj Palace Hotel, the exhibition venue, but certain restrictions apply. For more information, kindly contact the official fright-forwarding agency.

How do we unload material for our booth?

- Employees or labours of the exhibiting company may hand carry materials or use trollies to cart in the equipments and other material to the exhibit hall, ensuring no damage to the flooring/carpet. During carting of equipment/material, no storage should be done at the banquet porch/ drive way. The equipment should be directly transported to the exhibition floor.

How do we hire labour/ machines to set up our booth?
